Dr. Cashwell

To: Superintendent of Henrico County Public Schools, Henrico County School Board Representatives, and Board of Supervisors Representatives
From: Linda C. Willis, 4304 Penick Road, Henrico, Virginia
Date: February 24, 2020

Linda C. Willis

Hand delivered

I am writing as a Henrico taxpayer, as a parent who saw 3 children begin and complete Henrico County Public Schools and as the grandparent of 3 children currently enrolled in HCPS. I have serious concerns about the current redistricting process. When HCPS contracted (for a considerable amount of money) with an outside, objective company to come up with a fair plan to relieve overcrowding in our schools, I was encouraged. Previously, a local developer for the River Mill community had begun to advertise on the new community's website that the River Mill community would be attending 3 specific schools: Greenwood Elementary, Hungary Creek Middle School and Glen Allen High School. I found this quite alarming because the redistricting process was underway and there could be no guarantee to potential homebuyers that they would remain zoned in those specific schools. Unfortunately, my first thought was that the developer had contacted someone within HCPS and been given assurances that (without public input), the community had already been given the go-ahead to advertise their zoning for those schools. That "page" is no longer on the River Mill site.

Initial recommendations came out and there were a variety of responses. I understand there are parent concerns; however, after reading the vitriol expressed in public forums concerning some of our schools and the families and children who attend them, I was shocked. I know that kids are resilient and will learn and work together if adults do not influence their opinions of people of other races, countries of origin or economic status. However, what I was reading from these adults frightened me because I know that when kids hear these kinds of comments within their own home, they have to process them and, unfortunately, absorb them.

One of the current plans on the table will effectively move 500 students into Brookland Middle School and Hermitage High School. These 2 schools are currently struggling. "54% of the students attending Hermitage are classified as economically disadvantaged," while three-fourths of the student body attending Brookland are considered economically challenged." (RTD 2-9-20) These two schools currently draw students from Hope Village and other high-density housing areas and with the latest round of plans, specifically High School plans D3, E3 and E4 and Middle School plans E3 and E4, another public housing community would be attending them - Woodman West. So instead of attempting to create student bodies that are diverse racially, economically, as well as countries of origin, this latest plan will exacerbate the situations at both these schools. These two schools should be given every resource they need to make facility upgrades as well as whatever staff they need, creating the best possible learning environment for their current students before any changes to student populations are made. Schools without adequate investment into facilities and educational programming won't be able to effectively accommodate this increase in student population.

In the early 1990's, when Greenwood Elementary was built, Henrico County was faced with the same issue involving the necessity to unburden particular schools that were overcrowded. At that time I led a group of families whose children attended Longdale Elementary School. Longdale had Hope Village children attending the school making a wonderfully diverse student body. A group of our parents attended a standing room only School Board meeting full of people of all races and economic backgrounds. We made the case that instead of putting the relatively new Woodman West community into Longdale, thereby more than doubling the number of kids in poverty at the school, they were actually closer to Greenwood Elementary School and the new school would benefit from a diverse student body. The School Board and Dr. Bosher listened and Hope Village stayed in the Longdale district, while Woodman West went into Greenwood. Based on the numerous statewide write-ups about Greenwood Elementary School, it's clear the School Board made the right decision over 20 years ago in favor of diversity and equity in the redistricting process.

It is never easy to move children from a school they have become accustomed to but with parent's support and help and a fair evaluation of all communities, it can work. And while I realize no one likes to see trailers at schools, perhaps until Henrico County can come up with funding to make the necessary upgrades for all schools, the use of trailers may have to be the norm to ensure the least amount of disruption to all Henrico's students. The last thing Henrico needs are communities that are red-lined based on economics. And developers should not be rewarded for transmitting incorrect information in the hope of attracting wealthy home purchasers.

that instead of putting the relatively, new Woodman West community in Longdale, they were actually closer to Greenwood Elementary School. The School Board and Dr. Bosher listened and Hope Village stayed in the Longdale district and Woodman West went into Greenwood. And that was a success for all, particularly the children.

It is never easy to move children from a school they have become accustomed to but with parent's support and help and a fair evaluation of all communities, it can work. And while I realize no one likes to see trailers at schools, perhaps until Henrico County can come up with funding to make the necessary upgrades for all schools, the use of trailers may have to be utilized. The last thing Henrico needs is communities that are red-lined based on economics. And developers should not be rewarded for transmitting incorrect information in the hope of attracting wealthy home purchasers.

Use Caution: This message originated outside of Henrico County Public Schools. Use caution when opening attachments, clicking links or responding to requests for information.

Hi Andy,

I disagree, and may still address this matter under § 2.2-3713. "Proceedings for enforcement of chapter" of the Virginia Freedom of Information Act.

Please include the string of emails (including my response herein) going back to the original request on 12/3/2019 in the comments/feedback from the community that is posted for the upcoming public information sessions next week. I would like to memorialize requests for information from the community that have been rejected by HCPS as part of this redistricting process. Please include the two response letters from HCPS (dated 1/10/2020 and 1/28/2020).

This is rather unfortunate and discouraging for what is supposed to be a transparent redistricting process. Fulfillment of this request could have helped to address significant direction made by the HCPS School Board at their February 14, 2020 meeting to HCPS staff in terms of providing information to the redistricting committee and the public to arrive at better redistricting solutions.

Respectfully,

Todd Springer

PS. A resident of the community forwarded me an email with the excerpt below (resident gave me the okay to reference their communications with HCPS). It is furthermore discouraging that HCPS is using "Cropper GIS has developed an analytical tool for the committee's use that includes several factors, including the distance traveled to school in each option" to respond to other citizens but then refuses to provide any of the underlying information that is used by this "tool". The data exists and is Owned by HCPS, and could be provided in a form that does not violate any privacy information whatsoever.

Excerpt from email

Community Member (2/24/2020): Question 4: With transportation safety data readily available and the availability of technology to merge that data into GIS mapping, what is the rationale behind HCPS choosing instead to avoid data (e.g., ADT, accidents)? Does HCPS have plans to include countywide transportation safety data as a component of final HCPS decision-making at the completion of the contract period with Cropper GIS? Or does HCPS intend to modify the contract with Cropper GIS to include transportation data in GIS maps and ensure that risks do not increase?

HCPS (2/26/2020): *We don't agree with your assessment that HCPS has avoided data. The interactive map on the HCPS website has overlays for crash data and ADT from VDOT. There is also a link on our website that highlights the availability of this data. This data has been available to the committee as a component they can use for their decision-making process. Additionally, Cropper GIS has developed an analytical tool for the committee's use that includes several factors, including the distance traveled to school in each option.*

Community Member (2/27/2020): *See my above comment. If data were used to inform decision-making, the current options that increase various risk factors would have been eliminated under normal circumstances when qualified public and private sector entities work together to ensure transportation safety and security. Instead, unqualified citizens are asked to "consider" data. Several residents in my area have attended several of the redistricting committee meetings and have not seen the crash data and ADT from VDOT brought a single time during these meetings except when initially presented in December. Please provide details on the Cropper GIS analytical tool.*

- What software was used to determine the origin-destination route distances?*
- Was the tool developed in Excel, Access, or Python?*
- On which dates has this tool been made available to the Redistricting Committee to use during Committee meetings?*
- What additional transportation safety factors have been included in the tool?*

Use Caution: This message originated outside of Henrico County Public Schools. Use caution when opening attachments, clicking links or responding to requests for information.

Dear Dr. Cashwell and Rev. Cooper III

I would appreciate your prompt follow up on the matter below.

Item A) HCPS has not responded to my previous email on 1/30/2020. I spoke at the public forum at your previous board meeting on this matter. I have provided new information to support this request especially the "[A Guide to Handling FOIA Requests for GIS Data](#)" which was prepared by the FOIA Council in conjunction with the Virginia Information Technologies Agency. Both of these state agencies are very well versed on the topic at hand.

Item B) HCPS has rejected our request twice (see attached letters dated 1/10/2020 and 1/28/2020). HCPS has been unresponsive to my latest request on 1/30/2020. In both instances, I believe that HCPS did not comply with 2.2-3704.B.1 and/or 2.2-3704.B.2 of the [Virginia Freedom of Information Act](#) that states below. Some legal positions were stated but the responses did not cite the specific code section. I again note per Item A above that a comprehensive guide on this matter has been provided by the FOIA council which directly addresses 2.2-3704.G. of the Virginia Freedom of Information Act and I think HCPS should too respond to the applicability of this guide in response to my 1/30/2020 request.

"2.2-3704. "Public records to be open to inspection; procedure for requesting records and responding to request; charges; transfer of records for storage, etc."

*"B.1. The requested records are being entirely withheld. Such response shall identify with reasonable particularity the volume and subject matter of withheld records, and **cite, as to each category of withheld records, the specific Code section that authorizes the withholding of the records.***

*"B.2. The requested records are being provided in part and are being withheld in part. Such response shall identify with reasonable particularity the subject matter of withheld portions, and **cite, as to each category of withheld records, the specific Code section that authorizes the withholding of the records.***

Item C) I think it is rather sad and disheartening that HCPS has lawyers challenging the provision of this data to the redistricting committee and the public. The data exists. HCPS owns the data. HCPS can provide the data. I have now attended five redistricting committee meetings has have seen committee members request this type of data. I look to the statements you made below and hope that action on these hopeful and reasonable statements will prevail in what we all hope is an open and transparent process.

Statement from Rev. Roscoe Cooper when candidate for election to the HCPS School Board

<https://www.henricocitizen.com/articles/candidate-qa-henrico-school-board/>

*"For citizen participation to work, transparency of **information** is needed, as well as the inclusion of stakeholders from various groups in the community. "*

Quote from Dr. Amy Cashwell on redistricting:

<https://wtvr.com/2019/09/09/henrico-parents-meet-to-discuss-consequences-of-redistricting-plan-it-cant-be-a-cookie-cutter-approach/>

"Most importantly I hope that we accomplish a process that's very transparent and involves quite a bit of community input and dialogue," Cashwell said.

I look forward to your response to the above fair, respectful and responsible request.

Thank you,

Todd

Henrico, VA 23233

Mr. Springer:

Please accept this response to your email dated January 9, 2020, regarding your requests for information. I will attempt to review and explain our efforts, though for the sake of brevity, this is not intended to be an exhaustive accounting of what's taken place.

On December 3, 2019, you made two requests:

Request #1: Please provide the information in HCPS_Option_Scores_191126.pdf summarized by school in both PDF and Excel format. This should be simple to complete using a pivot table in Excel. I would suggest that this summary also provided to the Redistricting Committee. Overall statistics can give rather misleading answers and leave out major localized impacts.

*Request #2: We too would appreciate receiving the underlying Excel file with **ALL** the data with appropriate guidance on the information in the Excel file. My career involves a lot of data science with big data so I would assume that this information is properly organized and documented. We too presume the catchment areas have subdivisions associated with them, etc., so that we can in turn look at scores and impacts to the various subdivisions with the existing, Option A, and Option B.*

We responded to Request #1, which you acknowledged as having been fulfilled in a December 10, 2019 email. Also on December 10, you communicated the following:

Request #2: This request remains open. This request assumes that Cropper GIS used "catchment" areas per below for the Network Analysis. It would be helpful for HCPS to provide the GPS coordinates for the catchment areas that were used by Cropper GIS. I presume the route distances developed for each catchment area will be provided, etc..... Just for clarity, what I describe as a student catchment area is below and is an area bounded with a number of students in that area. This information would have been used to complete the data in Option Statistics.

In response to this request, we emailed you on December 11, 2019, as follows:

As it relates to #2: An "Underlying Excel file with ALL the data with appropriate guidance on the information in the Excel file" is too broad for us to determine what exactly might constitute responsive records that may be available. Regardless, I would note that all of the committee's materials are already posted publicly for review, and the school division is not producing additional guidance on the information aside from that which is being shared during the public meetings now and/or in the future. I'm sorry that isn't more helpful.

This information would have been used to complete the data in Option Statistics.

In response to this request, we emailed you on December 11, 2019, as follows:

As it relates to #2: An "Underlying Excel file with ALL the data with appropriate guidance on the information in the Excel file" is too broad for us to determine what exactly might constitute responsive records that may be available. Regardless, I would note that all of the committee's materials are already posted publicly for review, and the school division is not producing additional guidance on the information aside from that which is being shared during the public meetings now and/or in the future. I'm sorry that isn't more helpful.

We then arranged to have a phone call to try and clarify the request. You then acknowledged on December 12, 2019, that your effort to keep it simple made it more complex.

We then talked by phone on December 18, 2019, at which time you agreed to wait on your requests until new options were posted. After those options were posted, you emailed at 11:21 p.m. on December 19, 2019, saying that you were reinstating your request for the data. This request appeared to include a combination of previously existing requests and new requests as follows:

REQUEST #1) *We would appreciate HCPS sending the underlying data **for each Student Catchment Area** (GIS polygon areas) for each option used to develop the scores and statistics for each option including the following: count of students; Economically Disadvantaged; Average Student Transportation Distance; Live and Attended-In Students Impacted, etc... Right now, the maps **only** show the "count of students" per **Student Catchment Area**.*

*I propose the solution options below to provide this underlying data in an easy and efficient manner. I would be fine with **Solution B** below as long as the information is readable on a computer (if I zoom in somewhat). Again, I would argue that this information would be helpful to the analytically/data driven members of the Redistricting Committee.*

- **Solution A)** *In a spreadsheet*
- **Solution B)** *One other option, which might even be quicker and easier for Cropper GIS, is to publish the maps with the scores and statistics on the maps themselves located within the Student Catchment Area (GIS polygon areas). It might get a little cluttered and messy.*
- **Solution C)** *If the above is somehow unacceptable, then please provide all GIS data for the redistricting project in the form of a Map Package or Feature Service. This GIS information should all be properly documented per GIS industry standards of practice. Cropper GIS should be able to quickly provide this information on an ftp site or some other simple transfer mechanism*

REQUEST #2) *Again, I would also like the average route distance data and methodology.*

REQUEST #3) *The materials posted on HCPS's redistricting website for Options C and D do not contain statistics on Average Student Transportation Distance. This information was previously provided for Options A and B, for example, in 04-HCPS_Option_Statistics_Handout_191126.pdf. We believe this should be provided to the Redistricting Committee and public as soon as possible so that folks can fairly compare Options A, B, C and D. Please let me know if I somehow missed that.*

After that, we asked for another phone call so as to not "leave this hanging" for approximately two weeks when school division offices would be closed for Winter Break. After that phone call, on December 20, 2019, I emailed you to share that we were going to ask Cropper to add "layers" to the interactive map that is posted online at <https://henricoschools.us/redistricting/>. This occurred on January 7, 2020, just four working days later, given the time that our offices were closed for Winter Break.

As for your assertion that we are outside of the 5 days permitted by the Virginia Freedom of Information Act, I must disagree on the grounds that such a statement unfairly mischaracterizes the ongoing extent to which we have been responsive to your requests.

We believe we have provided, and will continue to provide, the public records in our possession; the same records made available to the redistricting committees as they continue their work. We interpret your correspondence as a request for a method of analysis that you believe is preferable over the analysis that is currently underway. Pursuant to FOIA, the school division is under no obligation to create new records or ask Cropper GIS to create new

records. Furthermore, it is worth noting that FOIA only requires that we produce records in the possession of HCPS; it does not require us to provide documentation in the sole possession of Cropper GIS. However, it has been our position throughout this process to work with you and other interested citizens to the greatest extent possible, which we believe we have done. At this time, we believe we have made reasonable efforts to meet your needs, but we feel we are no closer to satisfying you than we were when this process started.

Simply put, we have gone above and beyond what is required by FOIA, and at this time we believe our obligations under the Freedom of Information Act are complete.

Thank you for your thoughtfulness and continued interest in doing what's best for all the students of Henrico County. We look forward to our continued conversations.

Sincerely,

To: Lia Lash
Cc: Christopher A. Sorensen (casorensen); Justin M. Briggs (jmbriggs)
Subject: RE: Support for option E4

Good morning, Ms. Lash,

Thank you for taking the time to share your concerns. I am responding on behalf of Dr. Cashwell.

If you haven't done so, it is essential that the points noted in your e-mail be shared with the committee. This can be done online. The best way to communicate your concerns is through our website: <https://henricoschools.us/redistricting/>. All comments received are provided to the committee to review. All information and progress of the committee are posted on our website as well.

Redistricting is a challenging process for school systems and the communities they serve.

The School Board will not make any final decisions regarding redistricting until the spring of 2020. A lot can happen for the committee as they work to make recommendations to the School Board.

Your input is important in the process. Please do not fail to communicate to the committee charged with this task.

I have copied Chris Sorensen, Chief of Finance, and Justin Briggs, Education Specialist for Planning. Both are monitoring the work of the committee.

Again, I appreciate you sharing your concerns,

Cheri Guempel

Subject: Support for option E4

Use Caution: This message originated outside of Henrico County Public Schools. Use caution when opening attachments, clicking links or responding to requests for information.

Dear Sir or Madam:

I am writing to express concerns over the current redistributing that is being discussed.

I live in Monument Heights at Lake and Fitzhugh. My son will be starting Crestview Elementary in the Fall of 2021. Though High School seems very far away at this point, I know he will be starting high school before I know it. Like many of my neighbors, I heartily advocate for option E4 which will keep Crestview district at Freeman High School for many reasons.

Firstly, transportation-wise, moving our community from Freeman to Tucker scares me. The fastest way for us to get to Tucker from our house is to get on 64 west and exit at parham. If you do not take that route and take Monument to Three Chopt to Parham, we would actually drive by Freeman. And then drive another 2 miles! Broad could be considered an option, but with 3 very busy lanes that route can be nerve-wracking even for experienced drivers.

Bottom line, these are teenagers. For those who are relying on the bus, buses should not be expected to travel on the Interstate. Even worse is those teenagers who drive themselves every day. According to VDOT, there is a 350% increases in crashes as compared to the current route to Freeman. Then add in rush hour traffic, increased speed and busier intersections, including a necessary left-hand merge over several lanes of traffic. That entry onto Parham is difficult even for experienced drivers!

Secondly, we would be the only elementary school district not moving on to Freeman. That means any friendships that have been made in middle school are, in essence, over. These are boys and girls that have been playing together since a young age at area preschools, YMCA or JCC classes, area pools, community sports, etc. Transitioning in high school is hard enough. But now we are making our children form all new friendships at the same time.

Crestview is a Near West End Community. Freeman is The Near West End High School. I understand that you are trying to juggle a growing population and limited resources and space. But moving us doesn't even seem to make sense. We are an established community. There is no more room for growth. We are a somewhat known quantity, unlike many other communities in the far west end that are still growing. It would seem that placing those communities in a larger school where there is room to grow makes more sense.

Thank you for your time. Your work on this is very much appreciated.

Subject: Re: Ridge Elementary-redistricting concerns

Ms. Rettig,

Thank you very much for reaching out with this concern. I am including our staff members and consultant on this email so they have the information you have shared. I am sure that they can provide the committee with the most current and accurate information.

I appreciate you taking the time to be a part of the process.

Subject: Ridge Elementary-redistricting concerns

Dear Ms. Ogburn,

I am writing with some concerns about the information that was presented at the meeting on Wednesday evening and is being used to determine the drafts for Ridge. As you are aware, Ridge is a CEP school which means that all students receive free lunch, prior to that our free lunch rating was hovering around 92%, the percentage in the cropper presentation that was given was 47%, so when the committee discussed the impact of us losing 43 students who live in single family homes the quote was, "Oh, that only increases the poverty rate by 7%, no big deal" Well, when your rate is actually 92, that is actually a big deal. The goal of redistricting is to reduce pockets of poverty and I fear Ridge is one of the only schools who won't benefit at all from any of the goals. Our two choices are either 1. Stay the same as far as population goes with 3 trailers or 2. Increase our poverty rate by 7%. (side note, this is exactly what happened 10 years ago when no solution was given during that redistricting process, which has contributed to why our numbers have gotten so high at one point 598 students!!)

A draft where the poverty is distributed to other area schools has been created and **is possible** but the committee did not bring that forward. I know this because I helped to create it to create a balance of equity in the surrounding schools. You'll notice that Ridge's poverty rate is triple if not quadruple the area schools when it comes to poverty. Is it really in the best interest of our students for one school to support all the students in one area with the highest needs?

One of my most important jobs here at Ridge in my 16 years has been to advocate for the needs of my students and at times my most needy students, the ones who cannot speak up for themselves. I have to do what is best for them. Neither of these draft options is in the best interest of my students at Ridge. I say this as the counselor but as also a parent of second grader (variance). When you take away the single family homes you take away the role models for the EL students who are learning English, you take away the students who can answer questions when some are confused or unsure, you really upset the balance of what we have going for us and part of what makes Ridge such a unique and amazing learning environment.

Please help advocate to make sure that Ridge's true information is represented clearly because when they make these decisions there will be a big impact for our students at Ridge. I appreciate your time and thank you for your help!

If there is anything I can do to help in this process I am happy to help, please let me know.

HCPS

Rules to Follow

Redistricting Criteria

- Major roads and natural boundaries will be used when feasible to define attendance zones
- All reasonable efforts should be made to ensure contiguous geographic zones which minimize division of clearly identifiable community components (e.g. apartment units, residential subdivisions)
- All legal and judicial guidelines for the maintenance of a unitary school system will be strictly adhered to
- Efforts will be made to ensure an efficient system of school bus transportation
- Efforts will be made to establish walking school and reasonable walking zones where feasible.

GOAL

NOT ACHIEVED

Existing Proposal E-4 is **UNACCEPTABLE.**
≈
Immediate **CORRECTIVE ACTION REQUIRED.**

Neighborhood School

Continuity

- Godwin HS is a neighborhood school and safe walking distance to our neighborhood
 - Existing Proposals ~~E-4~~ and ~~E-3~~ would increase walking 1 hr and 15 min +
 - Existing Proposals ~~E-4~~ and ~~E-3~~ would have students walking on MAJOR roads with limited sidewalks (Parham, Pemberton, Three Chopt, Gaskins)
 - Unnecessary change will have negative effects on student mental health and student experience (e.g. loss of social network, academic performance, ability for after school and sports participation, and risk of alienation.
- Godwin HS is a neighborhood school and safe walking distance to our neighborhood
 - Existing Proposals ~~E-4~~ and ~~E-3~~ are not aligned to posted HCPS goals of “walking schools”, keeping neighborhoods together, and “major roads” to define boundaries.
 - Godwin opened in 1981, the same time as this neighborhood, and has been fully aligned since as our neighborhood school.
 - Participating in Godwin activities and sports is part of our neighborhood identity, when the band has practice, it can be heard from our backyards.
- Godwin HS is a neighborhood school and safe walking distance to our neighborhood
 - Existing Proposals ~~E-4~~ and ~~E-3~~ would break our neighborhood.
 - Homeowners in our neighborhood deliberately selected this neighborhood based on its proximity to Godwin.
 - If feeder patterns are an issue, keep us at Pocahontas MS (option D2 or D3)

1

Good Evening Dr. Cashwell, Chairman Reverend Cooper and School Board Representatives.

My name is Tracy Hilemn and currently live in the Crestview Elem/Tuckahoe Middle/Freeman district. I have a son in 9th grade at Freeman and a daughter in 7th grade at TMS, who will start 9th grade when the new districting plans go into effect.

Crestview area is the most eastern portion of Henrico's 'Westend' south of Broad Street. It primarily is the neighborhoods that border Monument Ave from Willow Lawn Drive (shopping center) to past Glenside Ave/Horsepen/Three Chopt. It encompasses St. Mary's hospital, Weinstein JCC, countless Asian & Latino supermarkets & restaurants. It is an area that is considered 'urban' with smaller residences and property square footage compared to homes just west.

Now for my story – Just over 5 years ago I lived in the Tuckahoe Elementary district, south of Patterson Ave. We moved there before starting a family and lived there over 15 years. We created our family through adoption. Both of my children are a different race than their father and myself. My son is African American/Caucasian and my daughter is Vietnamese. When it was time for my son to go to Kindergarten in 2010, we toured TES, talked to other parents and received Diversity statics from Henrico County Schools for all schools. TES had only 5% of non-Caucasian students. We felt strongly that our kids needed to go to a school where they wouldn't be the only child of a different race. TES wasn't a good fit. We weren't in the position at the time to move but instead we were granted Variance for both kids to attend Crestview Elementary, just to our east and most important, with 56% of students identified as non-Caucasian.

About 4 years ago we moved into the Crestview district. We now live on a cul-de-sac with seven houses. Out of the 7 houses, three houses of first-generation Vietnamese families in addition to my transracial family. In my neighborhood, there is racial diversity but it is truly more about diversity in culture. There are many first-generation immigrants where English is not their first language. Unfortunately, they are the people that don't feel comfortable coming to Board Meeting or to the redistricting meetings to speak.

Although racial and culture diversity is not a goal of the redistricting process, 'Reducing concentrations of poverty...' is one of the four goals. Crestview has 45% economically disadvantaged households that qualify for reduced or free lunches. Tucker has 46% economically disadvantaged. Moving Crestview to Tucker will INCREASE their economically disadvantaged population and at the same time reduce Freeman's 31% economically disadvantaged.

Currently, most neighborhoods that feed into Freeman, lack diversity and are not economically disadvantaged, with only a few exceptions. The Crestview Elementary neighborhoods are one of exceptions. Removing Crestview or any diverse or economically disadvantaged neighborhood would be a disservice to Freeman and directly oppose one the primary goals of redistricting for Tucker.

Pemberton Corridor Petition to Stay at Freeman High School

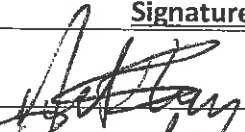

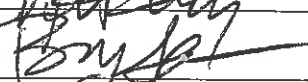

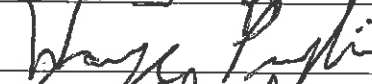

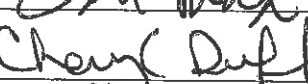

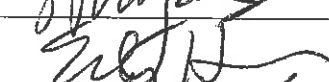

-- 2021 Henrico County Public Schools Redistricting --

We, the undersigned residents and voters of the Pemberton Corridor, including the neighborhoods of Springtree, Oldhouse Run, Gates Head, Candlewood, Rockstone, Quail Run, Pemberton Ridge and Pinedale Farms, do hereby petition the Henrico County School Board to remain at Douglas Freeman HS during the 2021 Redistricting.

Our area was rezoned in 2009 affecting hundreds of students.

We oppose any effort to move the Pemberton Corridor to a third high school in just 10 years.

We support the current D series options, and future iterations, that allow the Pemberton Corridor to **Stay at Freeman!**

Pemberton Corridor Petition to Stay at Freeman High School

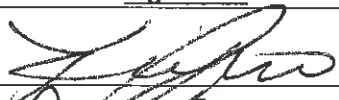

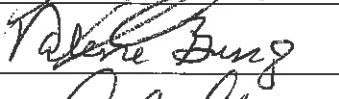

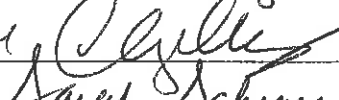

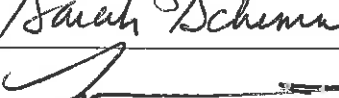

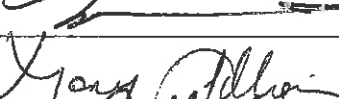

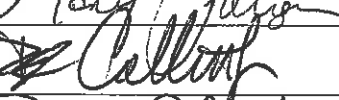

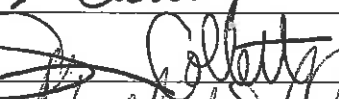

-- 2021 Henrico County Public Schools Redistricting --

We, the undersigned residents and voters of the Pemberton Corridor, including the neighborhoods of Springtree, Oldhouse Run, Gates Head, Candlewood, Rockstone, Quail Run, Pemberton Ridge and Pinedale Farms, do hereby petition the Henrico County School Board to remain at Douglas Freeman HS during the 2021 Redistricting.

Our area was rezoned in 2009 affecting hundreds of students.

We oppose any effort to move the Pemberton Corridor to a third high school in just 10 years.

We support the current D series options, and future iterations, that allow the Pemberton Corridor to **Stay at Freeman!**

Pemberton Corridor Petition to Stay at Freeman High School

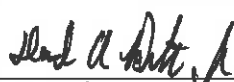

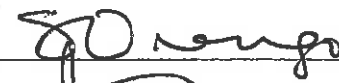

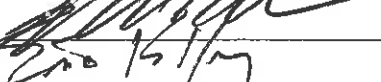

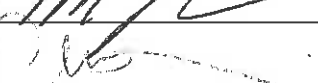

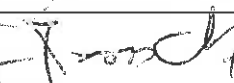

-- 2021 Henrico County Public Schools Redistricting --

We, the undersigned residents and voters of the Pemberton Corridor, including the neighborhoods of Springtree, Oldhouse Run, Gates Head, Candlewood, Rockstone, Quail Run, Pemberton Ridge and Pinedale Farms, do hereby petition the Henrico County School Board to remain at Douglas Freeman HS during the 2021 Redistricting.

Our area was rezoned in 2009 affecting hundreds of students.

We oppose any effort to move the Pemberton Corridor to a third high school in just 10 years.

We support the current D series options, and future iterations, that allow the Pemberton Corridor to **Stay at Freeman!**

Pemberton Corridor Petition to Stay at Freeman High School

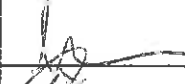

-- 2021 Henrico County Public Schools Redistricting --

We, the undersigned residents and voters of the Pemberton Corridor, including the neighborhoods of Springtree, Oldhouse Run, Gates Head, Candlewood, Rockstone, Quail Run, Pemberton Ridge and Pinedale Farms, do hereby petition the Henrico County School Board to remain at Douglas Freeman HS during the 2021 Redistricting.

Our area was rezoned in 2009 affecting hundreds of students.

We oppose any effort to move the Pemberton Corridor to a third high school in just 10 years.

We support the current D series options, and future iterations, that allow the Pemberton Corridor to **Stay at Freeman!**

Pemberton Corridor Petition to Stay at Freeman High School

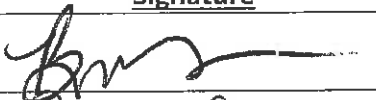

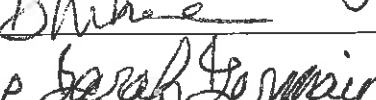

-- 2021 Henrico County Public Schools Redistricting --

We, the undersigned residents and voters of the Pemberton Corridor, including the neighborhoods of Springtree, Oldhouse Run, Gates Head, Candlewood, Rockstone, Quail Run, Pemberton Ridge and Pinedale Farms, do hereby petition the Henrico County School Board to remain at Douglas Freeman HS during the 2021 Redistricting.

Our area was rezoned in 2009 affecting hundreds of students.

We oppose any effort to move the Pemberton Corridor to a third high school in just 10 years.

We support the current D series options, and future iterations, that allow the Pemberton Corridor to **Stay at Freeman!**

Pemberton Corridor Petition to Stay at Freeman High School

-- 2021 Henrico County Public Schools Redistricting --

We, the undersigned residents and voters of the Pemberton Corridor, including the neighborhoods of Springtree, Oldhouse Run, Gates Head, Candlewood, Rockstone, Quail Run, Pemberton Ridge and Pinedale Farms, do hereby petition the Henrico County School Board to remain at Douglas Freeman HS during the 2021 Redistricting.

Our area was rezoned in 2009 affecting hundreds of students.

We oppose any effort to move the Pemberton Corridor to a third high school in just 10 years.

We support the current D series options, and future iterations, that allow the Pemberton Corridor to **Stay at Freeman!**

Bell Tower

HCPS 21/22 Redistricting PETITION

The Bell Tower community does not support any of the redistricting options offered by the Henrico County Redistricting Committee on 11/1/19, as evidenced by our signatures below. In addition, we will not support any option that takes our neighborhood out of the Pocahontas MS district (.7 miles) and/or any option that takes our neighborhood out of the Godwin HS district (1.2 miles). Any proposal that moves our neighborhood out of the "closest schools" district does not have our support.

Yes Bill, you can sign both our names to petition, if needed.
Danielle & Joe.

Thank you!

Hi Danielle

I hope you are enjoying Paris!

The survey is best for now.

We have a petition and are trying to get 100% of BT to sign off on it. Can you let me know if you agree with the statement and I will write your name in? The petition reads

The Bell Tower community does not support any of the redistricting options offered by the Henrico County Redistricting Committee on 11/1/19, as evidenced by our signatures below. In addition, we will not support any option that takes our neighborhood out of the Pocahontas MS district (.7 miles) and/or any option that takes our neighborhood out of the Godwin HS district (1.2 miles). Any proposal that moves our neighborhood out of the "closest schools" district does not have our support.

I plan another update this week and may have some suggestions on how our neighbors can help.

Thanks

Thank you Bill! This is all very helpful & thorough!!

We live in Bell Tower too but are currently spending most of our time in Paris for Joe's job. We will be back full time this summer.

I have filled out the on-line survey, opposing Plan A & B for MS & HS, as advised. Unfortunately we cannot attend meetings. Is there anything we can do from afar to help with the process? Send emails or letters to anyone?

Thanks again for all your hardwork on this!! I know it's very time consuming. We appreciate your efforts!!
