REDISTRICTING PROJECT FOR 2021: DIFFERENCES BETWEEN D1/D2 AND E1/E2

Please use this checklist to examine the differences between Options D1-E2. The differences between D1 and D2 have been identified, along with the differences between E1 and E2. To explore if it is possible to resolve the differences within the D and E options, go through each difference and discuss which DRAFT option is best in each scenario. Place a mark under D1-E2 to indicate that option best adheres to the redistricting goals and criteria, or specify another option in "other". After working through this checklist in small groups we will discuss as an entire group.
