

2025-26 Capacity, Official Enrollment, and Building Utilizations

The following document contains a series of tables that depict statistics for current schools and boundaries that are being evaluated. This information will help inform all stakeholders on how schools could be potentially impacted as a result of potential enrollment adjustments. The current student enrollment numbers were derived from the district’s 2025-26 Student Database dated October 2025. For estimated enrollment purposes, it is assumed that Eldredge Elementary will close and Meadowbrook Farms Elementary will serve grades PK-K for the district. The anticipated implementation year for the boundaries is Fall 2027.

DRAFT Options 1-2

The following tables present DRAFT options for the Internal Planning Team’s (IPT) review. Both options aim to consolidate the elementary schools with Frenchtown Elementary and Hanaford Elementary serving the 1-5th grade students within the district. Meadowbrook Elementary will serve grades PK-K throughout the district. Elkridge Elementary will close. Any of the following options can be changed based on feedback from the IPT, public, and district administration.

DRAFT Options 1-2 Enrollment and Utilization Estimates

The following tables reflect the DRAFT options estimated enrollment and utilization estimates. The estimated enrollment is calculated by adding the total students served that “Live In” a school zone within each new DRAFT Option boundary. Utilizations are calculated by dividing the estimated enrollment counts by the option capacity, described as a percentage to show how “full” a school is.

School	Capacity	Option 1 Estimated Enrollment						Estimated Utilization	
		1	2	3	4	5	Estimated Enrollment	+/-	%
Frenchtown Elementary School	615	72	95	109	100	108	484	131	78.7%

Key: Green represents “Live In” students who live in the boundary and are not impacted by the option. Beige represents the number of “Live In” students who live in the boundary and are impacted by the option.
