**2025-26 Capacity, Official Enrollment, and Building Utilizations**

The following document contains a series of tables that depict statistics for current schools and boundaries that are being evaluated. This information will help inform all stakeholders on how schools could be potentially impacted as a result of potential enrollment adjustments. The current student enrollment numbers were derived from the district's 2025-26 Student Database dated October 2025. For estimated enrollment purposes, it is assumed that Eldredge Elementary will close and Meadowbrook Farms Elementary will serve grades PK-K for the district. The anticipated implementation year for the boundaries is Fall 2027.

**Glossary of Terms**

Capacity -the number of students that an individual school has the physical capacity to enroll and can be reasonably accommodated in a facility.

Utilization - Utilization is the total enrollment divided by the capacity, described as a percentage.

Utilization Key
Within 10
Between 10 - 15%
Over / Under 15%

Live In students - Students residing inside of a school attendance boundary, regardless of where that student attends school.

**2025-26 Current Enrollment and Utilization Tables**

The following tables show the utilization by percentage based on current enrollment and 2025-26 building capacity.

School	Capacity	2025-26 Enrollment								2025-26 Utilization		Total Live-In

**DRAFT Option Recommendation**

The following tables present DRAFT option recommendation for stakeholders to review. This option aims to consolidate the elementary schools with Frenchtown Elementary and Hanaford Elementary serving the 1-5<sup>th</sup> grade students within the district. Meadowbrook Elementary will serve grades PK-K throughout the district. Eldredge Elementary will close. Any option can be changed based on feedback from the IPT, public, and district administration.

**DRAFT Option Recommendation Enrollment and Utilization Estimates**

The following tables reflect the DRAFT option recommendation, estimated enrollment and utilization estimates. The estimated enrollment is calculated by adding the total students served that “Live In” a school zone within each new DRAFT Option boundary. Utilizations are calculated by dividing the estimated enrollment counts by the option capacity, described as a percentage to show how “full” a school is.

School	Capacity	Option Rec. Estimated Enrollment					Estimated Enrollment	Estimated Utilization	
		1	2	3	4	5		+ / -	%
Frenchtown Elementary School	615	74	100	114	104	111	503	112	81.8%
George R Hanaford Elementary School	492	77	66	96	88	97	424	68	86.2%
	1,107	151	166	210	192	208	927	180	83.7%

**DRAFT Option Recommendation Enrollment and Utilization Estimates (Continued)**

Presenting the scenarios side-by-side helps visualize how an individual school changes in each plan. This data is the same as the tables on pages 2-3.
