2020/02/18 5:45:48 PM PST	Short Pump elem, Pocohontas, Godwin	Church Run	<p>Church Run supports Map D4, which keeps our current schools and feeder patterns. Church Run opposes Map E4, which will remove us from our current schools and disrupt our feeder patterns. The E4 map separates us from Windsor Place. The line being drawn to send us to Quioccasin and to Tucker is not a natural boundary between Church Run and Windsor Place.</p> <p>Our corner belongs at PMS and GHS due to proximity. Our neighborhood is 0.7 miles away from Pocahontas, while going to Quioccasin would send our children over 5x further to get to school (3.7 miles away). Our neighborhood is 1.6 miles away from Godwin, while Tucker is over 4 miles away. The route to Tucker would add traffic to the already crowded Gaskins / Three Chopt Intersection. Sending our kids to Tucker would also add traffic to the #1 most crowded area in Henrico – the Parham Rd & Mayland Dr. These changes have negative affects on the students and the County: more dangerous routes for our children on buses; more dangerous routes and more travel time for our teenage drivers; significantly increased wear and tear on the County’s buses. Map E4 takes neighborhoods and move them OUT of Quioccasin, sends them farther away to go to Pocahontas, while they take our neighborhood, which is right next to Pocahontas, and send us to Quioccasin. The buses will literally pass each other on their way to school. This does not make any sense. I have been a Henrico County resident for 33 years, and a homeowner for 30 years, have been through many redistricting projects and this one does not make any sense. Safety, tax dollars being spent efficiently, and common sense should come into play somewhere.</p> <p>Church Run supports map D4, which kerps us at our current schools.</p> <p>Thank you for your time and your efforts on this project.</p>
2020/02/18 5:51:50 PM PST	Glen Allen High School	The Village at Innsbrook	<p>I am strongly against the school redistricting proposal option D-4 and I am in favor of option E-4 for logistical reasons. Tucker High School is farther away from The Village at Innsbrook than both Deep Run HS and Glen Allen HS. In addition, only a very small portion of Holman Middle School students would be bused to Tucker HS.</p>
2020/02/18 5:53:07 PM PST	Holman/Glen Allen	Lexington	<p>I am writing to oppose D4. I feel this is unfortunate and out of the blue as all of the other options have kept us at Glen Allen and now at the end of the redistricting you may move us to Tucker with little time to really plead our case. All I can say is our kids went to Springfield Park and then Holman and all of the people they know will be going to GA HS except our little subdivision of 20 kids who will have to start over in 10th grade. If nothing else, for all schools involved, you should allow the kids that start at a High school to continue if they can provide transportation.... please consider this.</p>

2020/02/18 5:57:49 PM PST	Glen Allen High School	The Village at Innsbrook	My husband and I are against option D-4 and we are for option E-4 because of logistics. Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood. It is ridiculous to bus such a small portion of Holman Middle School class to Tucker. Our neighborhood being so far west will create longer travel time for our children. We chose this neighborhood to stay in the Glen Allen High School district specifically because we believe strongly in being geographically close to neighborhood schools.
2020/02/18 6:09:24 PM PST	Springfield Park, Holman, Glen Allen H.S.	Woodberry	The D4 High School Option does not make sense. The option has us attending Tucker. However, based on the feeder pattern, we should be attending Glen Allen or Deep Run.
2020/02/18 6:38:51 PM PST	Glen Allen H.S.	Innsbrook	<p>I am adamantly against option D-4 and in favor of option E-4 for the reason of logistics (Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood) and that such a small portion of Holman Middle School class would be bused to Tucker. If you look at the map for option D-4 High School, it snakes across Broad Street and our neighborhood is the farthest west boundary, while everyone around us stays out west.</p> <p>Thirty-three years ago, we moved to Richmond. My husband, a nuclear-electrical engineer, and I, having a PhD in Education, sought the best schools for our children. At the time, - Godwin would have been the High School they should have attended. So, we bought land and built our house in Innsbrook. HOWEVER, before either of them finished grammar school, the schools had been redistricted. Rather than Godwin, they attended Tucker H.S. To say we were very discouraged is a gross understatement. Hence, for the families that now have school age children, I support option E-4.</p>
2020/02/18 6:55:04 PM PST	Pocohantas/Godwin	Church Run	<p>-I support Map D4, which keeps our current schools and feeder patterns as they are today for Church Run. We are a mere 0.7 and 1.6 miles away from our current schools, respectively. So close and sensible!</p> <p>-I oppose Map E4. We don't want to increase travel distance, add congestion, or risk the safety of young drivers getting to/from school. This, and other maps that we oppose, would have our bus passing another bus each day, both traveling in opposite directions and both bringing the kids further away from their home. Not sensible!</p> <p>-Finally, Church Run shares a community pool, swim team, and tennis courts with neighbors in Windsor Place. There is no clear natural boundary btwn us; we should attend the same schools as our close neighbors and friends in Windsor Place.</p>
2020/02/18 7:04:47 PM PST	Rivers Edge Elementary	Sadler Walk	I oppose all high school options. I also oppose options that send kids from Sadler Rd area to Short Pump Middle from currently zoned Holman Middle. I do not understand why it is so difficult to keep existing feeder pattern as much as possible. Consider Sadler area to keep in Holman Middle and Deep Run High.

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
2020/02/18 7:05:25 PM PST	Pocahontas Middle School	Church Run	<p>I strongly support the new option D-4. D-4 keeps Church Run at our current schools with a uninterrupted feeder pattern. It makes the most sense given our proximity to Short Pump ES, Pocahontas MS, and Godwin HS, and retains the united neighborhood continuity with Windsor Place and Church Run.</p> <p>I strongly reject the new option E-4. The E4 map separates Church Run from Windsor Place by drawing an artificial boundary between the 2 neighborhoods, when in fact the two neighborhoods share walking paths (the boundary line actually cuts through the path) and share management of and use of the pool and tennis courts located between the two neighborhoods.</p> <p>Church Run belongs at Pocahontas MS and Godwin HS due to proximity Our neighborhood is 0.7 miles away from Pocahontas, while going to Quioccasin would send our children over 5x further to get to school (3.7 miles away). Our Church Run neighborhood is 1.6 miles away from Godwin, while Tucker is over 4 miles away. The route to Tucker would add traffic to the already crowded Gaskins / Three Chopt Intersection. Sending our kids to Tucker would also add traffic to the #1 most crowded area in Henrico â€” the Parham Rd & Mayland Dr.</p> <p>These changes have negative affects on the students and the County: more dangerous routes for our children on buses; more dangerous routes and more travel time for our teenage drivers; significantly increased wear and tear on the County’s buses.</p> <p>Map E4 takes neighborhoods and move them OUT of Quioccasin, sends them farther away to go to Pocahontas, while they take our Church Run neighborhood, which is right next to Pocahontas, and send us to Quioccasin. The buses would literally pass each other on their way to school</p>
2020/02/18 7:06:24 PM PST	Glen Allen High School	The Village at Innsbrook	<p>I am against option D-4 and in favor of option E-4 for the reason of logistics (Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood) and that such a small portion of Holman Middle Schoolclass would be bused to Tucker. If you look at the map for option D-4 High School it snakes across Broad street and our neighborhood is the farthest west boundary while everyone around us stays out west. My wife and I do not now have children in the school system. When we did, we lived in another neighborhood and our son went to Tucker High School However, I think that changing our current neighborhood to the Tucker High School Zone would be detrimental to the value of my home's value and am therefore against that move.</p>

2020/02/18 7:07:41 PM PST	Tuckahoe Middle/Freeman	Dorset Woods	<p>Hello, I had the opportunity to listen to the school board meeting last week and heard the requests of the school board regarding the redistricting process. The requests they had were clear - keep the K-12 arc as in tact as possible; choose the option that impacts the least number of students; make sure all schools are within an acceptable capacity range. Option E4 has more splits than D4 - D4 has 39 elementary schools with 100% feeder to MS, E4 only has 31. At the MS level, D4 moves 1,558 students, E4 moves 1,717. At the HS level, D4 moves 876 students, E4 moves 1,458. D4 meets capacity requirements, too. Given the data, E4 doesn't seem to meet any of the objectives set out as the guiding principles of this effort and the requests of the school board. On a personal note, I went to Freeman. My husband went to Freeman. It's where we met. We have always wanted our girls to go to Freeman and that's why we moved into our neighborhood. E4 would move my current 8th grader to Godwin after she spent her freshman year at Freeman. It would move my current 6th grader to Godwin her freshman year. Neither one of them would go to school with any of the friends they have now - all their friends would be going to Freeman. E4 would not only be disruptive and completely devastating to my girls, but to many other kids as well. That's why I'm supporting Option D4 and I ask the committee to strongly consider taking E4 off the table. If we are looking for another option, I'm sure most of you have heard of Option Z. Let's bring Option Z to the table and fully vet that with community feedback and a full committee review -Option Z keeps feeder patterns consistent and hits capacity targets. Please consider at least considering this option, which so closely aligns to the goals of this process.</p> <p>Thanks for your time and consideration! Nikki Stephenson</p>

2020/02/18 7:27:26 PM PST	Johnson Elementary	Brittons Hill Farms	<p>The Brittons Hill Farms (BHF) community requests that the districting pathway for this neighborhood of students align with the goals of this redistricting process. BHF seeks to be redistricted for Crestview (elementary) / Tuckahoe (middle) / Freeman (high). Currently, our neighborhood is districted as Johnson/Tuckahoe/Tucker. Our current neighborhood school pathway is split between the Brookland District for elementary and the Three Chopt District for middle and high.</p> <p>Maintaining the present pathway presents concerns for the present and continued overcrowding of Johnson Elementary. We are also concerned with divisions of student social networks - an issue happening for students leaving Tuckahoe as a majority of the rising 9th graders are routed to Freeman while a trickle of their social networks are routed to Tucker. Redistricting BHF for Crestview / Tuckahoe / Freeman reduces the further strain of overcrowding with Johnson Elementary while building a foundation of maintaining social networks for students as they rise through Henrico County Public Schools together.</p>

<p>2020/02/18 7:46:51 PM PST</p>	<p>Springfield Park</p>	<p>Lexington Farms</p>	<p>Board Members:</p> <p>My name is Eric Hilton. I am a Henrico County parent and a Henrico County teacher. I am married to a Henrico County teacher and we have other family members who are Henrico County teachers. I am writing to you from a variety of perspectives today with a range of concerns about redistricting. I sat in waiting so far, fearful of what was coming along potentially, knowing that Henrico’s usual boundary changes seem to always be ones that no one is anticipating and end up being thrown in very “œlate in the game.” So, while many others became irritated and irate, I simply waited, even though my neighborhood was adjusted on some maps a couple of times between Deep Run and Glen Allen. However, now that we are in the closing weeks of the process, I feel like now is the time to speak up.</p> <p>I’m specifically concerned about option D4. This option doesn’t meet many of the project’s stated objectives. There are many concerns I have with this option. My first concern is how it affects Godwin High School. There are many classes there with over 40 students. This option removes no students, but adds students to Godwin and would potentially increase already taxed class sizes. If this option is used, I feel like we will have another Hungary Creek situation, but at the high school level and we will end up back at the drawing board again within a couple of years. More importantly, that is a tremendous safety concern for teachers having to educate and manage 40+ students already, much less adding additional students to that list. Safety HAS to be a top priority and that specific fact was stated during the Feb. 13 meeting by Rev. Cooper. It is NOT safe to have that many students in a classroom at any level. My second concern is that Ms. Kinsella stated that Tucker currently has 5 feeder middle schools. If option D4 is chosen, then a small pocket of Holman students will be sent to Tucker. This does not solve the problem that Ms. Kinsella was referring to during that meeting. My other concern with that is the removal of the students that live in my neighborhood of Lexington Farms and maybe one or two additional neighborhoods that feed Springfield Park Elem. from the rest of their peers at Holman. These students will all have attended elementary and middle school together and then for high school, will be separated from the rest of their peers in what is some of the most influential years of their lives.</p> <p>A recent study on the mental health of over 100,000 high school students found the following results in regards to the importance of teen relationships:</p> <ul style="list-style-type: none"> *Higher-functioning immune system *Better self-esteem *Lower rates of anxiety and depression *Happier, more optimistic outlook *Longer life expectancy *Stronger emotional regulation skills *Improved cognitive function *More empathy and feelings of trust toward others.
--	-------------------------	------------------------	--

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
			<p>Removing a select group of students from the majority of their friends at such a pivotal time would be a tremendous detriment to them. The number of students being moved from our neighborhood into Tucker isn't enough to make a tremendous difference in any socioeconomic status or diversity for the school. And if I am correct, there is only a 47 student difference TOTAL with using Option D4. How is that beneficial at all? We will easily be having these same conversations again in a couple of years.</p> <p>Finally, it would also appear that Broad Street would be a simple boundary line to consider, as was stated in the original plans. It doesn't make sense to split up Lexington Farms and/or any of the Springfield Park students on that side of Broad Street. It almost looks as if our neighborhood is being singled out in favor of several more prominent neighborhoods that may have a larger homeowner's association and/or a more vocal base. It is extremely frustrating to the constituents in our district that all other maps kept us together and now at what many would consider "the waning hours" we are being separated. I fully realize that not everyone will be happy once this process is over, but it would seem apparent that leaving the most students alone as possible would be a desire for many in the county, which was also a statement shared by Ms. Ogburn during the Feb. 13 meeting. However, that does not mean you do so at the expense of the well-being of students. With that being said, I would sincerely ask that you reconsider the D4 option and make adjustments to it or completely remove it from consideration. Quite frankly, I would ask that the board and committee very seriously and carefully consider postponing the entire process to ensure that all construction is completed with the school renovations and that there won't be unnecessary changes required later. It makes perfect sense to push the changes for a least one more year. This would provide the board and committee ample time to continue looking at positive changes that would be the best options for our students. I thank you for your time and hope that the length of this letter doesn't deter you from reading it in its entirety.</p> <p>Sincerely,</p> <p>Eric Hilton HCPS Parent and Teacher</p>
2020/02/18 8:17:17 PM PST	Greenwood	Mountain Glen	I am writing to support high school option D for the Mountain Glen community. Option D compared to Option E seems to better preserve current boundaries while still making changes that align with the redistricting process goals. Thank you for your thoughtful consideration during this difficult process.

<p>2020/02/18 8:21:35 PM PST</p>	<p>Springfield Park, Holman Middle, Glen Allen High</p>	<p>The Woods at Innsbrook</p>	<p>I am reaching out as I am, along with a large and growing number of others in our area, highly opposed to the recently shared high school plan in option D4. For some reason it appears that the Springfield Park corridor of just a handful of neighborhoods is being carved out of the current Glen Allen district and being re-districted to Tucker which is rather surprising as it very much appears that this "solution" would contradict so many of the stated goals of the committee. Let me elaborate.</p> <p>This option would very much tear apart the core of the close knit Springfield Park community when it comes time for these students to head to high school. They would grow up with their friends, neighbors and youth sports teams throughout elementary and middle school and then be a very small portion of students pulled away from these same friends and neighbors to be sent to a high school with an extremely low number of students that have any familiarity to them. Not to mention that the Tucker area is zoned for totally different sports teams and extracurricular activities than the ones my children would have played on or participated in, within the Glen Allen area since the age of 4, so friends from these other potential areas would be minimal at best, so this is about as socially isolated as you can get.</p> <p>Based on the data only 17% of students from Holman will be sent to Tucker and that portion of those students that went to Springfield Park and friends of my children since Kindergarten would be even lower, likely about half that figure. If that isn't ripping apart the Springfield Park community at an extremely vulnerable stage in their lives, I don't know what is. The transition from middle school to high school is already a very difficult leap for children and doing so with a very small percentage of familiar friends and faces would honestly make the transition to high school considerably more difficult than it needs to be with the potential to be, dare I say catastrophic for children that have made life long friends from kindergarten to 8th grade only to lose them altogether with this high school transition plan.</p> <p>The fact that Holman is feeding 3 high schools (tied for most in the county) but with this option now sending such a small portion of those students to Tucker makes little to no sense when one of the core tenets of the committee is for continuity in our communities as this is about as contradictory to that as one can get especially for this small portion of students. This cannot be a logical solution as it would make these childrens lives so difficult across the board as so many of these childhood friends would be pulled apart and sent in different directions for high school with a very small portion being sent to Tucker.</p> <p>I also cannot fathom how this solution helps with overcrowding as Godwin essentially remains untouched and would be at 99% capacity so the subject of redistricting would need to be raised again very soon as this doesn't remotely help the capacity situation at all.</p> <p>This option also runs counter to the goal of allowing for natural boundaries of major roads to drive the boundary lines as the kids in our neighborhoods would be forced to cross two of the</p>
--	---	-------------------------------	---

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
			<p>major and most traveled roads and one of the most dangerous intersections in our county (Broad Street and Gaskins) to get to and from Tucker. Definitely not the path I would like my kids to be traveling as new drivers in high school.</p> <p>Our neighborhoods in the Springfield Park corridor have already been impacted a few years ago with being re-districted from Tucker to Glen Allen and Hungary Creek to Holman, and I'd very much discourage you from voting in favor of option D4 so that we dont have to go through this yet again, especially when the cons dramatically outweigh the pros that this option would create and run counter to so many of the core "goals" the committee has stated as being extremely important to them. Honestly I'm using the plural of pros but I have yet to be able to even find one with this option as opposed to numerous cons so I strongly hope you vote against option D4 and help keep our close knit Springfield Park community intact through high school.</p> <p>Thank you, Adam Sutton The Woods at Innsbrook</p>
2020/02/18 8:37:05 PM PST	Springfield Park Elementary School	Linsey Lakes	<p>Please utilize Elementary options D1, D2, E2, D3, or D4. They each keep the Linsey lakes neighborhood (Springfield Park Elementary Section 32) at Springfield Park Elementary (SPES). These options fit best with our feeder pattern for middle school and high school. The Linsey Lakes neighborhood only physically connects to neighborhoods (Crystal Creek and Milbrooke) that are only zoned to SPES. Linsey Lakes does not physically connect to any Echo Lake Elementary school neighborhoods. Please keep Linsey Lakes at SPES to keep us a part of our community.</p>
2020/02/19 2:15:50 AM PST	Glen Allen High School	The Village At Innsbrook	<p>I am against option D-4 and for option E-4 for the simple reason of logistics. Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood,. Plus, it would sever middle school friendships as such a very small portion of Holman Middle School class would be bused to Tucker - the Village at Innsbrook is at the farthest west boundary of the D4 map while everyone around us stays out west. The E4 option seems a more equitable solution.</p>
2020/02/19 4:51:11 AM PST	Glen Allen High School	Village at Innsbrook	<p>Thank you for the opportunity to provide feedback. I am strongly opposed to option D-4 for my neighborhood from a logistics standpoint. Tucker HS is farther away than both Deep Run HS and Glen Allen HS for our neighborhood. Additionally, under this plan only a very small portion of Holman MS would attend Tucker HS. It does not make sense for the Village at Innsbrook to go to any high school other than Deep Run or our current assigned Glen Allen.</p>
2020/02/19 5:10:07 AM PST	Short Pump, Pocahontas, and Godwin	Church Run	11309 Deephaven Court

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
2020/02/19 5:12:48 AM PST	Godwin HS , Pocahontas MS, Short Pump ES	Church Run	<p>Church Run supports Map D4, which keeps our current schools and feeder patterns Church Run opposes Map E4, which will remove us from our current schools and disrupt our feeder patterns The E4 map separates us from Windsor Place The line being drawn to send us to Quioccasin and to Tucker is not a natural boundary between Church Run and Windsor Place. The two neighborhoods share walking paths (the boundary line actually cuts through the path) Reference the "Class A Church Run Communication Recreation Membership" agreement Church Run has with Windsor Place and our jointly controlled community center/recreation facilities located between the two neighborhoods Our corner belongs at PMS and GHS due to proximity Our neighborhood is 0.7 miles away from Pocahontas, while going to Quioccasin would send our children over 5x further to get to school (3.7 miles away). Our neighborhood is 1.6 miles away from Godwin, while Tucker is over 4 miles away. The route to Tucker would add traffic to the already crowded Gaskins / Three Chopt Intersection. Sending our kids to Tucker would also add traffic to the #1 most crowded area in Henrico at the Parham Rd & Mayland Dr These changes have negative affects on the students and the County: more dangerous routes for our children on buses; more dangerous routes and more travel time for our teenage drivers; significantly increased wear and tear on the County's buses. Map E4 takes neighborhoods and move them OUT of Quioccasin, sends them farther away to go to Pocahontas, while they take our neighborhood, which is right next to Pocahontas, and send us to Quioccasin. The buses will literally pass each other on their way to school</p>
2020/02/19 5:25:39 AM PST	Short Pump/Pocahontas/Godwin	Church Run	<p>Hello, I wanted to let you know I am very concerned that one of your possible changes puts a boundary line between us and Windsor Place. Our two neighborhoods are really one. We share a community pool between us, and many of our children are friends and play together. There is a large concrete walking path that goes between the neighborhoods at the pool. Most of the children in both neighborhoods belong to the pool, and they spend their summers playing together and swimming together on the pool swim team. My younger son has a best friend that lives in Windsor Place, and they have been so since elementary school. As they journeyed to middle school together, thanks to the close proximity of Pocahontas they were able to walk to school on nice days. Relocating us to another middle school that is 5 times as far would prohibit them from being able to do so in the future.</p> <p>I do not understand why you would propose a divide between our neighborhoods and cause a break up of so many friends as they move on to middle and high schools.</p>

2020/02/19 5:28:46 AM PST	Glen Allen High School	The Village at Innsbrook	I am against option D-4 and for option E-4 for the reason of logistics (Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood) and that such a small portion of Holman Middle School class would be bused to Tucker. If you look at the map for option D-4 High School it snakes across Broad street and our neighborhood is the farthest west boundary while everyone around us stays out west.
2020/02/19 5:37:22 AM PST	Glen Allen High School	The Village at Innsbrook	I am against option D-4 and I am for option E-4 for simple logistics. Only a small amount of kids from Holman Middle School would be going to Tucker High School in option D-4 and it is not fair to the kids to do this. If you look at the map for option D-4 High School it snakes across Broad street and our neighborhood is the farthest west boundary while everyone around us stays out west.
2020/02/19 6:11:37 AM PST	Glen Allen High School	The Village At Innsbrook	For many reasons, I am completely against option D-4 and very much for option E-4. Transitioning into high school is difficult enough, without losing many of your friends who for the past 3 years (or more) you counted on going to high school with. In the case of my daughter especially, she already suffers from some anxiety and depression issues, and making her go to a different high school than she's been anticipating would be detrimental to her health! There would only be such a SMALL portion of Holman Middle students sent to Tucker and her friends live farther out in the district, so she would lose all of them. I absolutely IMPLORE of you - do NOT send these kids to Tucker. We've been building Glen Allen up for years and this would absolutely kill her spirit and send her into a spiral I don't know that she would come out of. Yes, it may sound like I'm being extreme, but this child already has so many issues and she depends on her friends on a daily basis. She needs to go to Glen Allen with her friends so she has some chance at a decent high school life.
2020/02/19 6:41:14 AM PST	Rivers Edge	Sadler Green	I am really not a fan of any of the options. I would prefer that a true feeder program be implemented so that all kids in an elementary school go to the same middle and high schools. Since I need to agree with an option my preference is any of the Ds. This will at least allow my children to go to middle school with the same kids from elementary school.
2020/02/19 7:21:01 AM PST	Glen Allen High School	The Village at Innsbrook	I am against option D-4 and I am for option E-4 for the reason of logistics (Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood) and that such a small portion of Holman Middle School class would be bused to Tucker. If you look at the map for option D-4 High School it snakes across Broad street and our neighborhood is the farthest west boundary while everyone around us stays out west.
2020/02/19 7:31:29 AM PST	Glen Allen High School	The Village at Innsbrook	I support option E-4 and strongly oppose option D-4 for the reason of logistics (Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood) and that such a small portion of Holman Middle School class would be bused to Tucker. When you look at the map for option D-4 High School it snakes across Broad street and our neighborhood is the farthest west boundary while everyone around us stays out west.

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
2020/02/19 7:38:23 AM PST	Pocahontas Middle School	Church Run	In reviewing the new maps, I strongly support D4 but have the following concerns about E4: for Middle School this option separates us from an adjoining neighborhood that we share the pool, recreation area and walking trails with; Pocahontas Middle School is only 0.7 miles away and will be very walkable with the planned sidewalks for ThreeChopt Road, Quioccasin Middle School is 5x the distance from Church Run; Tucker High School is over 4 miles away from Church Run, while Godwin is about 1.5 miles away, I'm concerned about teenage drivers having to go through more dangerous routes to get to school.
2020/02/19 7:41:43 AM PST	Elmont	Old Washington Hwy	What's going on
2020/02/19 7:58:15 AM PST	SPES/PMS/Godwin	church run	<p>I support Map D4, which keeps our current schools and feeder patterns and oppose Map E4, which will remove us from our current schools and disrupt our feeder patterns</p> <p>The arbitrary line drawn that sends Church Run to Quioccasin and to Tucker is not a natural boundary between Church Run and Windsor Place. The two neighborhoods share walking paths and community center/recreation facilities and the boundary line actually cuts through the path. Please do not break up this established community.</p> <p>Church Run belongs at Pocahontas Middle and Godwin High due because of proximity to our neighborhood schools. Our neighborhood is 0.7 miles away from Pocahontas, while going to Quioccasin would send our children over 5x further to get to school (3.7 miles away). Our neighborhood is 1.6 miles away from Godwin, while Tucker is over 4 miles away. The route to Tucker would add traffic to the already crowded Gaskins / Three Chopt Intersection. Please do not send our children to schools that are farther with more dangerous routes for our children on buses and more dangerous routes and more travel time for our teenage drivers.</p>
2020/02/19 8:08:37 AM PST	Maybeury, Tuckahoe Middle, Freeman	Dorset Woods	I feel it is very important to NOT split up the kids in this neighborhood after elementary school. It is a hard transition and these kids should be allowed to follow their classmates to Tuckahoe Middle and Freeman. There is too small of a community that you would be sending to Quioccasin and Goodwin. My family and I are totally against this option. It also affects home values in our area.

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
2020/02/19 8:28:31 AM PST	Johnson Elementary	Brittons Hill Farms	<p>The Brittons Hill Farms (BHF) community requests that the districting pathway for this neighborhood of students align with the goals of this redistricting process. BHF seeks to be redistricted for Crestview (elementary) / Tuckahoe (middle) / Freeman (high). Currently, our neighborhood is districted as Johnson/Tuckahoe/Tucker. Our current neighborhood school pathway is split between the Brookland District for elementary and the Three Chopt District for middle and high.</p> <p>Maintaining the present pathway presents concerns for the present and continued overcrowding of Johnson Elementary. We are also concerned with divisions of student social networks - an issue happening for students leaving Tuckahoe as a majority of the rising 9th graders are routed to Freeman while a trickle of their social networks are routed to Tucker. Redistricting BHF for Crestview / Tuckahoe / Freeman reduces the further strain of overcrowding with Johnson Elementary while building a foundation of maintaining social networks for students as they rise through Henrico County Public Schools together.</p>
2020/02/19 8:43:25 AM PST	Short Pump Elementary School, Pocahontas Middle School, Godwin High School	Church Run	<p>Church Run supports Maps D2-D4, which keeps our current schools and feeder patterns. Church Run opposes Maps E1-E4, which will remove us from our current schools and disrupt our feeder patterns.</p> <ul style="list-style-type: none"> - The E1-E4 maps separate us from Windsor Place. The line being drawn to send us to Quioccasin MS and Tucker HS is not a natural boundary between Church Run and Windsor Place. The two neighborhoods share walking paths and trails (the boundary line actually cuts through the walking path). Additionally, the "Class A Church Run Communication Recreation Membership" agreement joins Church Run with Windsor Place and controls the community center/recreation facilities located between the two neighborhoods. - Our community belongs at PMS and GHS due to proximity. Our neighborhood is 0.7 miles away from Pocahontas, while going to Quioccasin would send our children over 5x further to get to school (3.7 miles away). Furthermore, our neighborhood is 1.6 miles away from Godwin, while Tucker is over 4 miles away. The route to Tucker would add traffic to the already crowded Gaskins / Three Chopt Intersection. Sending our kids to Tucker would also add traffic to the #1 most crowded area in Henrico - the Parham Rd & Mayland Dr corridor. These changes have negative affects on the students and the County: more dangerous routes for our children on buses; more dangerous routes and more travel time for our teenage drivers; significantly increased wear and tear on the County's buses. - Map E1-E4 takes neighborhoods and move them OUT of Quioccasin, sends them farther away to go to Pocahontas, while they take our neighborhood, which is right next to Pocahontas, and send us to Quioccasin. The buses will literally pass each other on their way to school which seems to be a poor use of resources.

2020/02/19 8:51:09 AM PST	Godwin	Church Run	Please support option D4 for our Church Run neighborhood. We have made numerous concessions to the county in prior years to achieve continuity, proximity and safety for our students, and again we are under duress - even though the County is taking our resident's property to build a sidewalk to Pocahontas MS. How is Tucker HS even an option with the traffic safety issues. Please do not put our HS students on the interstate during the 8am and 5 pm commutes. Please do not split our children from their siblings and their only friends. The Church Road corridor is a distinct community. It is completely arbitrary and unjust to slice it up as you have in proposal E4. Thank you
2020/02/19 9:01:25 AM PST	None	Church Run	Support D1-4 High school options Support D2-4 Middle school options and I am Opposed to D1 Middle School and I am Opposed to ANY of the E options.
2020/02/19 9:08:37 AM PST	Freeman	Far West End	Option E4 is a disaster for everyone in the entire West End. Who supports this? Certainly no one that lives here and understands our various communities.
2020/02/19 9:20:32 AM PST	Johnson	Brittons Hill	<p>The Brittons Hill Farms (BHF) community requests that the districting pathway for this neighborhood of students align with the goals of this redistricting process. BHF seeks to be redistricted for Crestview (elementary) / Tuckahoe (middle) / Freeman (high). Currently, our neighborhood is districted as Johnson/Tuckahoe/Tucker. We are also concerned with divisions of student social networks - an issue happening for students leaving Tuckahoe as a majority of the rising 9th graders are routed to Freeman while a trickle of their social networks are routed to Tucker. Redistricting BHF for Crestview / Tuckahoe / Freeman reduces the further strain of overcrowding with Johnson Elementary while building a foundation of maintaining social networks for students as they rise through Henrico County Public Schools together.</p>
2020/02/19 9:21:23 AM PST	Glen Allen High School	The Village at Innsbrook	I am a concerned homeowner in the Village at Innsbrook and would very much like Glen Allen High School to continue to be the feeder high school for our neighborhood. Please consider this as it is very important to all of our neighbors with school aged children. Thank you!
2020/02/19 9:25:35 AM PST	Glen Allen High School	The Village at Innsbrook	I am against option D-4 and am for option E-4 for the reason of logistics (Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood) and that such a small portion of Holman Middle School class would be bused to Tucker. If you look at the map for option D-4 High School it snakes across Broad street and our neighborhood is the farthest west boundary while everyone around us stays out west.

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
2020/02/19 9:30:40 AM PST	Glen Allen High School	The Village at Innsbrook	<p>Hello. We are very concerned about the redistricting to option D-4. We strongly prefer the option E-4 for the best of our family and the neighborhood. Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood, and that such a small portion of Holman Middle School class would be bused to Tucker. Traveling all the way across Broad Street and our neighborhood would cause difficulties for the parents and the students. It also brought negative impacts by forcing our children out from their current schools. Innsbrook represents a hard working population in Glen Allen and keeps a positive business and residential environment. Proudly being a homeowner in this area, we hope to keep the current routine as it is, or we are afraid redistricting schools might motivate many people to relocate. Thank you for your consideration.</p>

<p>2020/02/19 9:32:04 AM PST</p>	<p>Springfield Park, Holman, Glen Allen</p>	<p>The Woods at Innsbrook</p>	<p>I am writing to let you know that I am very concerned about redistricting option D4 and would strongly urge you to vote against this option. This new option fails to meet many goals of the redistricting process. My biggest concern at this time is that this option carves out a small area around Springfield Park Elementary School and sends them to Tucker High School while majority of their peers will go to Glen Allen High School. This not only breaks the feeder pattern, but causes social isolation in the most influential years of their lives which could be detrimental to their mental health and academic performance. I personally have a child that is shy and struggles with confidence and the ability to make friends quickly and it would be devastating for him to be torn from his friends, neighbors, teammates and close knit community as he enters that transition. One of the stated goals of the Committee is to encourage participation and involvement of geographically contiguous communities; however, I do not believe this goal is being met when the anticipated number of Holman students at Tucker is only 17% and Springfield Park Elementary students will only make up about 10% of the population at Tucker.</p> <p>D4 does not alleviate overcrowding at many of the area schools, in fact it actually increases the number of students at multiple schools, such as Godwin High School. D4 very clearly leaves the overcrowding issue unresolved. This is worrying and needs to be addressed to reduce the need for further redistricting. Our area was already impacted by the last redistricting and had to go through a transition from Hungry Creek and Tucker to Holman and Glen Allen and we do not want to continually stress about when we are being moved next since the capacity issues will still be unresolved.</p> <p>D4 carving out this small area North of Broad Street and West of Gaskins Road means that our children would have to cross two major roads to get to school. This too is counter to one of the Guidelines of the Committee, to use major roads as boundaries. The thought of my children as new drivers in High School having to cross major roads and dangerous intersections to get to school is terrifying.</p> <p>This map also makes very minimal progress in addressing the areas of poverty and improving the economic status of many schools. If this is truly a goal of the committee, I do not feel that it is being addressed. If the percentage of change in these areas is as it stands in map D4, it will make no difference for these schools.</p> <p>Thank you for taking the time to consider these points as this redistricting effort continues. A large number of families in these affected neighborhoods feel that they run counter to the stated goals and objectives of the Committee and want to make sure our voices are heard.</p>

2020/02/19 9:50:02 AM PST	Glen Allen High School	The Village at Innsbrook	We are against option D-4, and FOR OPTION E-4. This is because Tucker HS is farther away than Glen Allen HS, and also Deep Run HS., and would require unnecessary bussing across busy Broad Street.
2020/02/19 10:29:38 AM PST	Glen Allen High School	The Village at Innsbrook	I strongly oppose redistricting residents of The Village at Innsbrook to JR Tucker HS -- option D-4. Both Glen Allen HS and Deep Run HS are located closer to our subdivision, and it makes no sense to assign them to a school further away than those two high schools. If anything, residents of The Village at Innsbrook should be redistricted to Deep Run HS, which is closest to the subdivision. If that's not possible, I strongly support option E-4. I'm sure the majority of our subdivision's residents also favor option E-4.
2020/02/19 10:32:29 AM PST	Glen Allen High School	The Village at Innsbrook	There appears to be two redistricting options identified for my neighborhood D4 and E4. D4 does not make any sense as it is much further away for our kids to attend for both middle and high schools. You have done this type of redistricting to us before. We have two high schools within 5 minutes drive of one to two miles distance and you want to ship the our kids to a school 20 minutes away at Tucker. Stupid! E4 is a much better choice for my subdivision for all schools.
2020/02/19 10:34:14 AM PST	Glenn Allen School	The Village at Innsbrook	I am for option E-4 for our neighborhood. From an environmental POV, it makes more sense for students to travel round trip to Deep Run or Glen Allen (6 miles) than Tucker (8 miles) .
2020/02/19 10:40:16 AM PST	Glen Allen High School	The Village at Innsbrook	Best for this neighborhood, Tucker is too far from our subdivision!!
2020/02/19 10:56:09 AM PST	Short Pump Elementary, Pocahontas MS and Godwin HS	Church Run	Support D1-4 High school options Support D2-4 Middle school options and NOT support D1 Middle School and NOT support any of the E options.
2020/02/19 11:11:06 AM PST	Pocohontas	Church Run	This email has several points to addressee. First since this redistricting is a work in progress I would ask the committee to extend the grand fathering option to rising Sophomores. Without that option you are asking our students to make that huge transition to two new High Schools with its two new buildings, two sets of new teachers and two sets of new fellow students twice in less than 1 calendar year. This is requesting a lot from anyone let alone from the students. We should all keep in mind that in the end this effects our students. Secondly this is in support of options D1 through D4. We need to keep our communities together and minimize the travel disruption to our students. All of the E options would divide our Church Run/ Windsor community and increase the travel distance to school from three to five times more. E options are all unacceptable in this individuals opinion when our goal is to maintain community and minimize potential harm..

2020/02/19 11:15:56 AM PST	Johnson/Tuckahoe/Tucker	Brittons Hill Farms	<p>The Brittons Hill Farms community requests that the districting trajectory for this neighborhood of students align with the goals of this redistricting process. BHF seeks to be redistricted as Crestview (elementary) / Tuckahoe (middle) / Freeman (high). Currently, our neighborhood is districted as Johnson/Tuckahoe/Tucker. Our neighborhood school trajectory is split between the Brookland District for elementary and the Three Chopt District for middle and high.</p> <p>Maintaining the present trajectory presents concerns due to the present and continued overcrowding of Johnson Elementary as well as later divisions of student social networks - an issue happening for students leaving Tuckahoe (a majority of the rising 9th graders are routed to Freeman while a trickle of their social networks are routed to Tucker). Redistricting Brittons Hill Farms as Crestview / Tuckahoe / Freeman reduces the further strain of overcrowding with Johnson Elementary while building a foundation of maintaining social networks for students as they rise through Henrico County Public Schools together.</p>
2020/02/19 11:20:49 AM PST	Glen Allen High School	The Village at Innsbrook	<p>As a household with a child, we are strongly opposed to option D-4! Tucker is further away from where we live and has a terrible reputation. Please leave our neighborhood children in the Glen Allen High School where they belong! Please consider option E-4!</p>
2020/02/19 11:42:53 AM PST	Glen Allen High School	The Village at Innsbrook	<p>I am against the D4 option and for the E4 option. the reason of logistics (Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood) and that such a small portion of Holman Middle School class would be bused to Tucker. If you look at the map for option D-4 High School it snakes across Broad street and our neighborhood is the farthest west boundary while everyone around us stays out west.</p>
2020/02/19 11:57:22 AM PST	Springfield Park ES	Lexington Farm	<p>10824 Hinton Ct</p>
2020/02/19 12:00:20 PM PST	Short a Pump Elementary	Stone Gate	<p>Maps E3 & E4 have us moving to Quioccasin MS & Tucker HS. This feeder pattern would have my kids NOT moving on to middle school with most of their friends from elementary school, and then again they would NOT move on to high school with many of their new middle school friends. In addition to the feeder pattern, the increased distance & significantly heavier traffic to get to Tucker high school is an unnecessary risk to students traveling on buses and also not a route my child would be allowed to drive as a newly licensed driver. This would increase the number of bus riders and restrict the ability of students to get them selves to after school activities, sports, clubs and jobs.</p> <p>Maps D3 & D4 follow a healthy feeder pattern in addition creating a safer commute for students who utilize the buses and those who are new drivers.</p> <p>I highly support maps D3 & D4</p>

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
2020/02/19 12:01:04 PM PST	Springfield Park ES	Lexington Farm	We bought this house for the fact that are kids could stay with friends & classmates from SPES, Holman and the GAHS. This is very disruptive to my family. I have 2 children with learning disabilities and this change is just just an added pressure and longer commute for us. Very inconvenient. I'm very active in the PTA because the schools are convenient to our neighborhood as it should be...
2020/02/19 1:05:13 PM PST	Glen Allen High School	The Village at Innsbrook	I am adamantly against Option D-4 as as it will separate the current Holman MS students and result in much longer bus rides, and more importantly for the older students, driving time that will incorporate W Broad Street Road and potentially I-64 into the trip! Not a good combination for everyone involved! TCG
2020/02/19 1:08:19 PM PST	Glen Allen High School	The Village at Innsbrook	I am against option D-4 and for option E-4 because the schools are farther away from our neighborhood and that such a small portion of Holman Middle School class would be bused to Tucker. Our neighborhood is the farthest west boundary while everyone around us stays out west. I know school district lines have to be changed from time and time and not everyone is going to like it. However, this doesn't make sense when the other schools are closer. Thank you for taking the time to consider.
2020/02/19 1:09:25 PM PST	Pocahontus	Church Run	Please consider the foundations of our current community, including the importance of continuity in neighborhoods, families, friends and feeder schools. Church Run supports plan D4. Plan E4 disregards every articulated criteria for redistricting.
2020/02/19 1:44:57 PM PST	Crestview	Monumental Floral Gardens	As the parent of a current student at Crestview Elementary School, I have been following along with the committee's progress. It seems that the Crestview Community stands out in comparison to the other communities affected by the redistricting in one major way. Pockets of Poverty. If the committee remains faithful to the guidelines that have been established, Crestview should continue with the current feeder pattern (Crestview Elementary to Tuckahoe Middle to Freeman High School). Over half of the students at Crestview qualify for free or reduced lunch. If the feeder pattern changes and sends our students to Tucker, it contributes to the already high concentration of poverty (50% of students qualify for free/reduced lunches at Tucker). Allow the rich diversity that is Crestview to remain at Freeman. The Crestview community has what the Freeman community needs--diversity! Not just economic diversity, but cultural and racial diversity as well. Tomorrow evening Crestview Elementary will celebrate this rich diversity by hosting their annual International Dinner Night where each family brings a dish representing their heritage. There are 21 languages spoken at Crestview, WOW! This intentional desire to bring folks together, to share a meal and to essentially be one big Crestview family for the evening is so special! Thank you for considering my feedback as you make your decision about redistricting.

2020/02/19 2:23:21 PM PST	Crestview	Westview	<p>I am a Henrico resident with children currently at Crestview Elementary. I am writing you to support the high school draft E options for redistricting. These options would leave the Crestview zone at Freeman High School rather than Tucker High School.</p> <p>My main reason is proximity and all of the benefits that come from attending the closest neighborhood school. It is illogical, wasteful, yes dangerous to have our kids drive past Freeman every day at rush hour to attend a school almost twice as far. I honestly feel like no parent or school board member would want this for their own children.</p> <p>Also, the perception of this potential move to Tucker under the plan D maps seemingly groups more minority children at Tucker and keeps Freeman primarily white. I don't know the numbers on that, but that is certainly the impression in the community. This move then would be antithetical to HCPS stated diversity goals, especially since it would require such obvious gerrymandering to achieve. One can easily see the bad press and potential lawsuits such a knowingly loaded and unnecessary move would make.</p> <p>Thank you for your time,</p>
2020/02/19 2:31:44 PM PST	Glen Allen HS	olde Springfield	<p>Many henrico residents are unhappy with the redistricting process and the amount of our tax payer dollars that it is wasting. There is an option that only moves very few students - this is a reasonable way to consider the Henrico constituents and our time and resources. Cropper is not needed and his quote of "this is only a tool" to the committees is the opposite of what the School Board has said. This is disheartening to the Henrico tax payers.</p> <p>Please consider Option Z. It has been updated to include the most recent data released by Cropper GIS and HCPS (released on 1/29/2020). https://drive.google.com/open?id=1ofihg9CKiYE3WmHB07Q5fTOKQiUSId</p> <p>The highlights are:</p> <ol style="list-style-type: none"> 1. Option Z impacts only 332 MS students and only 385 HS students. Cropper GIS's options move thousands of students. 2. With Option Z, no MS is over 93% and no HS is over 95% utilization. 3. Option Z is the least disruptive to feeder patterns compared to any of Cropper's options. 4. Option Z better adheres to the redistricting guidelines, in particular, the geographical proximity and natural boundaries. 5. Cropper's options either do very little to help the economically disadvantaged, don't help at all, or in some cases, make matters worse. 6. In Option Z, we bring several tracts BACK to Hungary Creek MS in order to help the economically disadvantaged. 7. Option Z is better for the entire County, keeping with the "One Henrico" sentiment that promotes unity rather than division.

2020/02/19 3:09:04 PM PST	Glen Allen High School	The Village at Innsbrook	We are against option D-4 and E-4. Tucker is far away from our location compared to Glen Allen or even Deep Run. We are also concerned that with or without neighborhood children attending Holman they would be leaving behind a large percentage of children that they have gone through K-8 with. They will be a small minority of the freshman class entering Tucker. A better educational experience would be for our children to continue education with our neighboring communities.
2020/02/19 4:03:11 PM PST	Godwin	Three Chopt	Plan E4 destroys the entire West End as we know it. Complete chaos for everyone.
2020/02/19 4:24:45 PM PST	Johnson Elementary	Brittons Hill Farms	<p>The Brittons Hill Farms (BHF) community requests that the districting pathway for this neighborhood of students align with the goals of this redistricting process. 2020/02/19 6:36:18 PM PST	Rivers Edge - Holman	Dalton Park, Sadler	<p>Please bring back high school options A and B. Also, please keep the existing feeder pattern for our community, Rivers Edge for Elementary and Holman for middle. Also, let's make it right by assigning Deep Run high school for this area. Please note Deep run is closer to this community compared to Glen Allen. Also, by assigning kids from this community to Rivers Edge > Holman > Deep Run will help keep their friends intact. It make absolutely no sense to move kids to Short Pump and then to Glen Allen high when feeder pattern show less than 13% kids may stay together. This is a really bad feeder pattern. I am not sure who are involved in reviewing these maps, this make no sense. I am sure if you consider keeping kids from Dalton Park to Rivers Edge, Holman and Deep Run, you will see lot of happy parents and kids.</p>
2020/02/19 6:38:35 PM PST	DSF, TMS	Westham Parkway	<p>Strongly opposed to E1-4 options!!! This is an unnecessary disruption of successful and strong schools. Please throw the E options off of the table</p>
2020/02/19 8:17:51 PM PST	Glen Allen High School	The Village at Innsbrook	<p>I'm against option D4 and favor option E4, I don't understand why our neighborhood was specifically carved out in option D4. In option D4 it looks like you are segregating our neighborhood from surrounding neighborhoods.</p>
2020/02/20 5:12:37 AM PST	Glen Allen High School	The Village at Innsbrook	<p>I am against option D-4 and you are for option E-4 for the reason of logistics (Tucker is farther away than both Deep Run HS and Glen Allen HS for our neighborhood) and that such a small portion of Holman Middle School class would be bused to Tucker. If you look at the map for option D-4 High School it snakes across Broad street and our neighborhood is the farthest west boundary while everyone around us stays out west.</p>

2020/02/20 8:21:22 AM PST	Glen Allen high	Lexington	<p>Hi,</p> <p>I am writing this to express my strong opinion against Option D4. I live in Lexington neighborhood north of Broad St and west of Gaskins Rd. If D4 is chosen, our small subsection of children from Springfield Park elementary and Holman middle will go to Tucker whereas most other kids in same community will go to Glen Allen high.</p> <p>This goes against the Committee guideline to use a major road as a boundary. Also, this can disrupt existing social relationships for the kids leading to weaker school performance. Please understand that our kids' future also matters as much as other bigger and vocal groups in the county and disregard this ill-conceived plan D4. Thanks for your consideration.</p>

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
2020/02/20 8:25:27 AM PST	Holman/Glen Allen	Lexington/Green Springs	<p>The version of the HS map, D4, targets a few small neighborhoods (51, 48, 23, 29 on the map) for redistricting to Tucker HS. All of these children attend Holman Middle School. They play sports at the Shady Grove Y and through Glen Allen Athletics. Students at Tucker play sports through the Tuckahoe Y and Tuckahoe Little League, in fact, due to Little League zoning rules, our kids can't even play in the Tuckahoe league! Carving this small section out of the Glen Allen HS district breaks their peer connections and places them into a school where they have no social ties. Further to that, the subsection of children that you are proposing to redistrict (51,48,23,29) make up 47 kids from Holman. They are THE ONLY kids from Holman that would not attend Glen Allen or Deep Run with their peers. THIS number is in reality, is too high as it doesn't account for kids that will be attending Specialty Center. More realistically, the impacted group would be 30-40 kids. Research clearly shows that kids that start high school with strong peer ties are more successful. Transitioning to High School is hard enough, educators know the importance of peer ties. Removing this small group of kids does undue harm and is detrimental to their growth and development as it clearly breaks the feeder pattern. The kids that you are proposing to redistrict don't move the needle on capacity at Glen Allen or Tucker nor do they positively impact the socioeconomic aspect of Tucker. This is not about not wanting to attend Tucker, this is about setting our kids up for success and treating them fairly. Surely you wouldn't want your kids to be put at such a disadvantage during such a pivotal time in their adolescence.</p> <p>I implore you, PLEASE reconsider the section of D4 that singles out families in areas 51, 48, 23, 29. PLEASE from one parent to another. PLEASE don't do this to our kids.</p>
2020/02/20 10:28:50 AM PST	Glen Allen High	Greenwood area	<p>Passing one high school to get to another makes zero sense. What are they trying to do here? This entire process has been drawn out far too long and far too many options have been put forward. I certainly hope you do the right thing. People purchase homes with the a strong consideration to the school zone. Now the county is doing this messed up redistricting. WHY?</p>

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
2020/02/20 10:30:49 AM PST	Johnson Elementary	Brittons Hill Farms	<p>The Brittons Hill Farms (BHF) community requests that the districting pathway for this neighborhood of students align with the goals of this redistricting process. BHF seeks to be redistricted for Crestview (elementary) / Tuckahoe (middle) / Freeman (high). Currently, our neighborhood is districted as Johnson/Tuckahoe/Tucker. Our current neighborhood school pathway is split between the Brookland District for elementary and the Three Chopt District for middle and high.</p> <p>Maintaining the present pathway presents concerns for the present and continued overcrowding of Johnson Elementary. We are also concerned with divisions of student social networks - an issue happening for students leaving Tuckahoe as a majority of the rising 9th graders are routed to Freeman while a trickle of their social networks are routed to Tucker. Redistricting BHF for Crestview / Tuckahoe / Freeman reduces the further strain of overcrowding with Johnson Elementary while building a foundation of maintaining social networks for students as they rise through Henrico County Public Schools together.</p>
2020/02/20 10:34:23 AM PST	DSF	Spottswood park	We support map D3 and D4 for Redistricting
2020/02/20 12:53:06 PM PST	Glen Allen High School	The Village at Innsbrook	<p>We are strongly opposed to the option D4 because Tucker HS is so far away (and requires crossing the very busy W. Broad Street. Only a small number of Holman MS would have to be bused there. - Option E-4 would be the most desirable for the students from our neighborhood. Both, Glen Allen and Deep Run High School, will be more easily accessible for students and parents for all school functions.</p> <p>Thank you in advance for your favorable considerations. Guenther Horn, Li Jiang-Horn - Parents of Melinda Jiang-Horn, Grade 6 at Holman MS</p>
2020/02/20 1:29:43 PM PST	Tuckahoe Middle / Freeman HS	Brinkhaven (Freestone Ave)	Of the new redistricting options released we recommend D4 since it keeps Us in the Freeman district. Our kids walk to school - Tuckahoe Middle and Freeman HS, and it makes no sense whatsoever that our daughter who would become a HS Freshman in 2022 walk out of our neighborhood in the same direction as Freeman, only to have to turn onto Parham Rd. and walk along a busy main rd, and cross over 64 to get to Tucker, a greater distance than to Freeman. Thank you. Andrew and Jill Fuller
2020/02/20 5:24:03 PM PST	TMS/DSF	Old Westham	I am opposed to E1, E2, E3, E4
2020/02/20 5:32:15 PM PST	Glen Allen hs	Olde Springfield	Our neighborhood is discarded in option D4 and being rezoned to tucker when those past us at the innsbrook and Sadler area that are further away from glen allen hs are going to GAHS Why? Also, the elementary feeder schools should not be separated. Terrible d4 has 5 elementary schools going to tucker.. what a mess.

Timestamp	School affiliation	Subdivision	Please provide your questions or feedback related to the process.
2020/02/20 5:40:44 PM PST	Springfield park	Olde Springfield	E4 is the only HS option that makes sense and does not separate the elementary feeder patterns. Please do not separate our school from each other
2020/02/21 5:51:20 AM PST	Springfield Park ES	Woods at Innsbrook	I am very confused why this neighborhood where Springfield Park ES is located in a new zone for Tucker. The middle school will not change from Holeman and now you are splitting that middle school into what I assume would be 3 HS splitting the kids up that went to Springfield Park. It seems that you are just taking one slice and moving it to Tucker. I live on Ft McHenry parkway near the school and do not understand why you are extending the line past Broad Street as a boundary. I am very confused and upset at this late breaking news. Although I have a first grader I have been watching this and thought I was safe. Apparently I may be not to my extreme dismay. I have signed a petition to have this changed before the next round of submissions. Thanks

<p>2020/02/21 9:10:03 AM PST</p>	<p>Ridge Elementary</p>	<p>Staff Member at Ridge Elem.</p>	<p>I am writing with some concerns about the information that was presented at the meeting on Wednesday evening 2/21 and is being used to determine the drafts for Ridge which was false information. Ridge is a CEP school which means that all students receive free lunch, prior to that our free lunch rating was hovering around 92%, the percentage in the cropper presentation that was given was 47%, so when the committee discussed the impact of us losing 43 students who live in single family homes the quote was, “Oh, that only increases the poverty rate by 7%, no big deal” Well, when your rate is actually 92, that is actually a big deal. The goal of redistricting is to reduce pockets of poverty and I fear Ridge is one of the only schools who won’t benefit at all from the any of the goals. Our two choices are either 1. Stay the same as far as population goes with 3 trailers or 2. Increase our poverty rate by 7%. (side note, this is exactly what happened 10 years ago when no solution was given during that redistricting process, which has contributed to why our numbers have gotten so high at one point 598 students!!)</p> <p>We do not have new construction, however when the economy is poor our families usually double up which is how our numbers can potentially increase to such a high rate. Keep that in mind when you look at utilization. With 3 major apartment complexes that allows a lot of fluctuation from year to year with our population.</p> <p>A draft where the poverty is distributed to other area schools has been created and is possible but the committee did not bring that forward. I know this because I helped to create it to create a balance of equity in the surrounding schools. You’ll notice that Ridge’s poverty rate is triple if not quadruple the area schools when it comes to poverty. Is it really in the best interest of our students for one school to support all the students in one area with the highest needs?</p> <p>One of my most important jobs here at Ridge in my 16 years has been to advocate for the needs of my students and at times my most needy students, the ones who cannot speak up for themselves. I have to do what is best for them. Neither of these draft options is in the best interest of my students at Ridge. I say this as the counselor but as also a parent of second grader (variance). When you take away the single family homes you take away the role models for the EL students who are learning English, you take away the students who can answer questions when some are confused or unsure, you really upset the balance of what we have going for us and part of what makes Ridge such a unique and amazing learning environment.</p> <p>Please help advocate to make sure that Ridge’s true information is represented clearly because when they make these decisions there will be a big impact for our students at Ridge. I appreciate your time and thank you for your help!</p> <p>Please consider looking at the maps to see if the poverty can be distributed more evenly vs. taking away the students at Ridge who help create a heterogeneous learning environment.</p>

			<p>If there is anything I can do to help in this process I am happy to help, please let me know.</p>
<p>2020/02/21 9:19:37 AM PST</p>	<p>Springfield Park Elementary/Holman Middle</p>	<p>Green Springs/Lexington Farms</p>	<p>I was disappointed the communities around Springfield Park Elementary were not an item discussed at the February 19th Joint Committee Meeting. As stated in previous feedback, I am against HS Option D4 for this area. It is a terrible option because it divides the area in an awkward way. This splits up the Glen Allen HS District into essentially two parts (see yellow chunk in the middle of green Glen Allen HS district). Furthermore, it is a poor option because it sends a small number of kids to Tucker HS from Holman Middle.</p> <p>ES/MS/HS D1, D2, D3, E1, E2, E3, and E4 are most in line with Redistricting Procedural Guidelines and Project Goals. For the split between Glen Allen High School and Tucker High School, these HS options provide safer bus routes and keep elementary and middle school communities together through high school. Also, these maps are more inline with current boundaries for all schools and communities in this area - the primary reason people moved into their homes. I know only options D4 and E4 are the only viable ones at this time, but these maps listed above all have better options for this split.</p>
<p>2020/02/21 12:15:59 PM PST</p>	<p>Springfield Park</p>	<p>Woodberry</p>	<p>I am writing today to express my concerns over the D4 redistricting in Henrico. This map is extremely disruptive for a small group of students and is incredibly inequitable. As the county is trying to make sure all students receive an equitable education, I am not sure how splitting a neighborhood up in the manner that has been drawn on this map while leaving Godwin alone addresses any of those issues. As we saw in North Carolina and the Leandro case, this kind of inequitable divide is unacceptable and coming with legal ramifications. I hope the county will rethink how it is dividing the county and whether we are still appeasing certain communities over other</p>
<p>2020/02/21 1:01:36 PM PST</p>	<p>Glen Allen High School</p>	<p>Maurice Walk</p>	<p>I was looking to move in Henrico County and purchase a home about four years ago and ended up purchasing my current home in the Maurice Walk subdivision. I made an approximately \$200k decision based on many factors, one of which included the school districts. I chose this area because my address was associated with Greenwood Elementary School, Hungary Creek Middle School and Glen Allen High School. I also based my decision on the possibility of raising a family in which the children would go to these schools as well as future market/resell value.</p> <p>I noticed the E1 and E2 draft options change the school district for my home and I do not support any change to my current district as I would like to stay within the current district.</p> <p>Thank you for your time, Brianna Baldwin</p>

2020/02/22 5:33:04 AM PST	Glen Allen HS	Woodberry	<p>With the new D4 map projected it takes our neighborhood out of the Glen Allen HS district and puts us in the Tucker HS district. In looking at the map it takes a small chunk of students who had been at Holman MS and puts them at Tucker with students they have NEVER been with! Holman should stay split between Deep Run HS and Glen Allen HS and not add a third high school in the mix. For continuity sake, leave Woodberry neighborhood at Glen Allen HS!</p>
2020/02/22 11:45:39 AM PST	Glen Allen High School	Mountain Glen subdivision	<p>Greetings Henrico School District Board Members,</p> <p>My name is Allen Moldenhauer living at 2608 Pinkerton Place in the Mountain Glen subdivision. I usually do not write elected officials based on the political discord currently in the United States. My observation is that elected officials appear to be beholden to special interest groups (e.g., home development builders) and not their constituents. Therefore, I have little hope that you will consider my plea to minimize the school redistricting impact on existing communities over the promises of new (or newly developed) home developers' commitment to perspective home buyers.</p> <p>I understand the need to build reelection coffers and that your family and friends will not be adversely impacted by school redistricting, but I request that you consider the impact on those of us that are your constituents. Though the national political discourse will not be solved with the Henrico school redistricting, you, as elected representatives, can make a difference in a smaller setting.</p> <p>Please vote for high school option D.</p> <p>Thank you for reading my email.</p> <p>Sincerely, Allen C Moldenhauer</p>

2020/02/25 1:55:09 PM PST	Freeman High School	Oldhouse Run	I moved to this neighborhood for the schools - Jackson Davis, Quioccasin and Freeman. This same neighborhood was rezoned just 10 years ago from Godwin. While I did not live hear, the old neighborhood I moved from was also Freeman and sold as a Freeman zoned property. I live across from the new construction on Pemberton which is being sold as Freeman Zoned by Ryan Homes. Your current E plans (along with A, B, and C) make little sense as it's drawn. The natural cut that is Three Chopt should not be breached in creating a new Tucker area.
2020/02/25 3:09:43 PM PST	Middle school	Windsor Park Townhouses	Yes to drafts E1, E2, E3, E4.... No to drafts D1,D2,D3,D4.
2020/02/25 7:28:41 PM PST	Pocahontas	Church	After attending the redistricting meeting on Feb 19, I was really discouraged to see how disorganized this restricting process is. GIS Cropper Consultant brought up slides/discussions that were already voted on. The committee members were confused as to why they were voting for both elementary and secondary schools, as the members stated in the meeting they were not comfortable voting for the other side. The committee members brought up they were scared to vote in front of the public and that they would want their vote to be anonymous. Which is ridiculous. If you chose to serve the public then the public should hear you and know your stance. Seems as though this entire process is not transparent. It is confusing, unorganized, and not strategic. Cropper is doing a terrible job, throwing up slides on random maps of random zones is not working. It's very sad that this disorganized process is going to determine the educational fate of our kids, which we as parents chose when we purchased our homes.
2020/02/26 6:18:52 AM PST	Springfield Park Elem, Glen Allen High School	Lexington	10924 Brunson Way
