

Background and Guiding Principles

With the support of the Board of Education, the Northwest Local School District is undertaking a redistricting study to address imbalances in school utilization and enrollment, and to pro-actively align with future facility plans. The Northwest Local School District has begun a redistricting study to meet the following key objectives:

Primary Objective:

To relieve immediate overcrowding at elementary schools and balance school utilization, with boundary changes made effective Fall 2023. Middle and High School boundaries could also be adjusted to best align with feeder patterns while impacting the fewest students as possible.

Secondary Objectives:

To make best efforts to ensure that Fall 2023 boundary changes align with long-term facilities and feeder patterns. Facility changes that have been identified include:

- New Colerain Elementary School
- New Colerain Middle School
- New Pleasant Run Middle School
- Discontinue use of White Oak Middle School

Public Information Session Survey

From December 13, 2022 through January 2, 2023, an online survey will be available to provide insight on the public's thoughts about the DRAFT Options. This survey is not intended to gauge which option gets the most votes from the public. The best feedback is constructive comments regarding changes that better adhere to the project objectives and redistricting criteria.

To view the options or to learn more about the process, please visit the NWLSD redistricting webpage that hosts all of the materials and presentations up to date. (<https://www.nwlsdredistricting.com>)

The online survey can be found on the district website, via the NWLSD redistricting webpage link above, or by scanning the QR Code below with your phone.
