

# 2026-27 Redistricting Study

## Public Information Session #1 Fast Facts

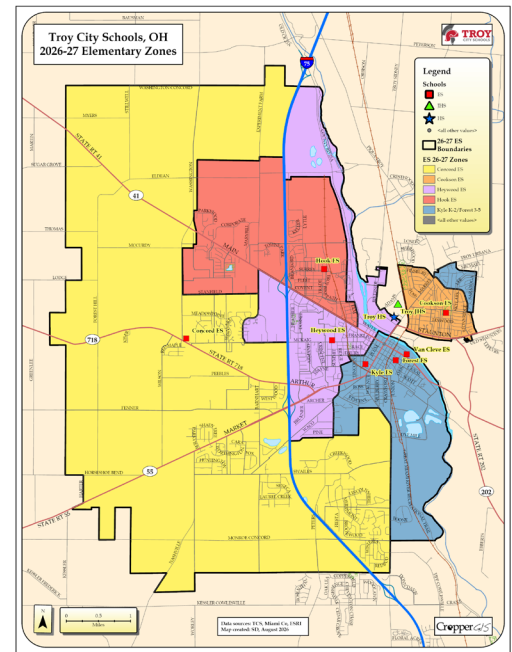

### Background

Troy City Schools is defining new attendance boundaries for its reconfigured and newly constructed schools, part of the district's facility master plan, which includes:

- Six current elementary schools (Concord, Cookson, Forest, Heywood, Hook, and Kyle) consolidate into three new K-4 buildings: North, East, and West Elementary.
- A new fifth/sixth-grade center, South Intermediate, will serve grades 5-6, replacing the Van Cleve sixth-grade center.
- Elementary buildings move from K-5 to K-4, and the Kyle K-2/Forest 3-5 paired configuration ends.

Implementation is scheduled for the 2027-28 school year.

### Upcoming Public Events

#### PUBLIC INFORMATION SESSION #1

**August 27, 2026**

6:00 pm

Online

#### PUBLIC INFORMATION SESSION #2

**October 8, 2026**

6:00 pm

Troy High School Auditorium

### Redistricting Criteria

Cropper GIS developed these criteria with the district before the work began. Every redistricting option is evaluated against them, and the recommended plan will be the one that best adheres to them as a whole.

1. Balance school facility utilization
2. Maximize busing efficiencies
3. Proximity to home
4. Establish contiguous zones
5. Use major roads and natural boundaries

*Additional criteria under consideration include minimizing the impact on students, accounting for future enrollment growth, and supporting economic diversity across the district.*

### Stay Involved

- Project website and online map: [tcsredistricting.com](https://tcsredistricting.com)
- Participate in upcoming public events
- Submit comments any time via the feedback form
- District site: [troy.k12.oh.us](https://troy.k12.oh.us)
